

# INTELLIBRITE® COLOR-CHANGING LED LANDSCAPE LIGHTS

## SHOWCASE YOUR LANDSCAPE WITH CAPTIVATING COLOR AND ANIMATED LIGHT SHOWS

IntelliBrite landscape lights are the way to add a variety of colored lighting effects to your backyard retreat. Whether you're ready to wind down for the evening or perk up for a party, IntelliBrite landscape lights will create the perfect atmosphere.

- IntelliBrite landscape lights can be synchronized with IntelliBrite Underwater Pool and Spa Lights for coordinated or complementary lighting effects.
- Select from two color effect modes for a total of 10 rich, fixed colors and 14 mesmerizing, automated light shows to match your mood, the occasion or the season of the year.
- Choose between two brightness levels to alter color intensity.
- Fully adjustable, compact, medium flood design in attractive matte black finish.
- Easily placed to highlight a tree, shrub, lawn sculpture or garden, as well as to illuminate drives, walks or decks and patios.

## AN ECO SELECT® BRAND PRODUCT

IntelliBrite lights have earned the Eco Select brand, designating them as one of the most environmentally responsible choices in the Pentair family.

# INTELLIBRITE® COLOR-CHANGING LED LANDSCAPE LIGHTS

Screw-off lens cap provides fast, easy access to mode and brightness switches

Superior lens geometry and reflector design create highly uniform light and color distribution for best overall light quality

Adjustable elbow joint for easy vertical adjustment

Mounting stake for secure attachment and easy installation

## SIMPLY THE MOST DRAMATIC LIGHTING OPTIONS AVAILABLE

LED technology is clearly the wave of the future in energy efficiency, lifetime value and quality of light. And IntelliBrite light technology uses the brightest LED lights available to add the vibrance and intensity that create the beauty, safety and security you want around your home.

- Easily connected to standard 12-volt transformer.
- Provides significantly longer life than incandescent light bulbs.
- IntelliBrite lights feature durable, solid-state technology with no internal filament to wear out.
